

**EWI WORKS** Linda Miller, B.Sc. OT, M.E. Des., CCPE, CPE -  
President, EWI Works International Inc.

---

Linda established EWI Works (Ergo Works Inc.) in 1991 to provide ergonomics consulting, design reviews, and user testing at both industrial and office environments. Training and educational courses are also provided by Linda, utilizing a team approach which enables organizations to learn together about the ergonomics process. Linda customizes each training program to align with an organization's goals thereby enabling them to gain the maximum benefit from the training.

Linda received a Bachelor's degree in Rehabilitation Medicine (Occupational Therapy) from the University of Alberta and a Masters degree in Environmental Design from the University of Calgary.

Linda has extensive presentation experience at conferences such as ACOEM and association meetings and is a Clinical Assistant Professor at the University of Alberta, in the Department of Rehabilitation Medicine.

Linda has been involved in large scale projects in healthcare, utilities, forestry, manufacturing and municipalities. Projects have ranged from industrial/office assessments to full scale roll out of an ergonomics program and plan. Linda frequently is involved with organizations to assess current ergonomic programs to identify gaps and help support process improvement in to improve the applications of ergonomics in new equipment/work area and process design.

In addition, Linda is a member of the Alberta Association of Registered Occupational Therapists, the Canadian Association of Occupational Therapists, and she is a full member of the Association of Canadian Ergonomics and a member of the Human Factors and Ergonomics Society in the United States. She is a Canadian Certified Professional Ergonomist and holds American certification with the Board of Certified Professional Ergonomists.
